Update on Notice Mailing Delays

The Anchorage Data Center has notified us that parts arrived but they are still working on fixing their broken laser printer.

Notices due to be mailed 3/26/03 were not printed at the Data Center. Systems Operations has printed the regular EIS notices and our vendor advised these notices will be mailed today, March 26.

As we mentioned in yesterday's broadcast, the DKC notices cannot be printed until the Data Center printer is working. DKC notices for 3/25/03 and 3/26/03 have not been printed. We anticipate they will be printed and mailed tomorrow and will let you know if there is a further delay. Please keep this in mind with regard to adverse action timeframes.
